1. The entrance exam

You can take part in the 21+ Entrance exam when you have applied to one of our programmes but do not meet the minimum entry requirements. The conditions of the exam are that you have to be 21 years or older on the date the programme starts, and you need to be in the Netherlands to take the test*.

Inholland does not accept the results of entrance exams from other Universities of Applied Sciences.

* **Please note:** The minimum age for the holder of a foreign diploma, which is sufficient for a degree programme in the home country, is set on eighteen years. The age requirement is also eighteen years for some cases in which the foreign candidate isn't able to submit a diploma. This mostly concerns refugees. The set date of the minimum age is the start of the academic year: September 1st.

1.1 Components of the entrance exam

The entrance exam consists of **two components**.

The **first component** is a capacity test developed by NOA, which is carried out at home behind your computer or laptop. Digital supervision is used to take the test at home, called proctoring. The capacity test is designed for us to examine whether you have sufficient knowledge and skills to be able to start a course at Inholland University of Applied Sciences. We do this on the basis of a Multicultural Capacity Test for Higher Level (MCT-H): your results are compared with a reference group in order to determine whether you indeed meet the required level for the study programme you have applied for. Please note that a resit is not possible for the capacity test. You can take part once per academic year.

Components of the capacity test

The MCT-H consists of eight subtests. These subtests measure four factors: logical reasoning & spatial insight, numerical abilities, verbal abilities and perceptual speed. In the MCT-H report, the results can also be displayed in an IQ score to determine a general intelligence level.

Logical reasoning & spatial insight

Logical reasoning is about the extent to which a candidate is able to discover logical relationships between images and if a candidate is able to orient himself spatially.

Numeric abilities

Here we look at the ability to calculate and the ability to reason with numbers.

Verbal abilities

Here the focus is on the knowledge of the meaning of words and the ability to see logical relations between words.

Perceptual speed

The ability to distinguish differences quickly and accurately is measured.

If you successfully completed the capacity test, you can take part in the **second component** of the entrance exam: the subject test or tests which take place at one of our institution's locations. Once you applied for the entrance exam you will receive more information about the exact location and date of the test.

2. Application

Applying for the entrance exam consists of 4 steps:

1. Add an enrolment request for an English-taught programme via Studielink. Make sure to leave the part that mentions your previously completed education empty.
2. Once you received login details, you can check your Selfservice. The registration form and additional information will be available there.
3. Upload the form and, if applicable, copies to apply for special procurements due to a disability in Selfservice.
4. When the registration form and other required documents have been received via Selfservice on time, you will find a payment link in the Studyshop in Selfservice within 2 days or a week before the capacity test at the latest. When your payment is processed you will receive an email which confirms your enrolment to the capacity test of the entrance exam.

When you pass the capacity test, you will receive a placement form approximately a week before the subject test takes place. It will mention the subject test's time and exact location.

2.1 Important dates

Capacity test	Final enrolment / cancelation date	Subject test date	Subject test location	Resit subject test	Resit location
27 th of November 2024	22 nd of November 2024	Saturday January 11 th 2025	Den Haag	Saturday April 12 th 2025	Den Haag
13 th of December 2024	11 th of December 2024				
22 nd of January 2025	17 th of January 2025	Saturday April 12 th 2025	Den Haag	Saturday June 14 th 2025	Den Haag
13 th of February 2025	10 th of February 2025				
20 th of March 2025	17 th of March 2025				
23 rd of April 2025	16 th of April 2025	Saturday June 14 th 2025	Den Haag	Friday July 4 th 2025	Haarlem
22 nd of May 2025	16 th of May 2025				
6 th of June 2025	2 nd of June 2025				
25 th of June 2025	20 th of June 2025	Friday July 4 th 2025*	Haarlem	Thursday August 21 st 2025	Haarlem

*Please note: If you choose to participate in the subject test of July, it might take longer than the usual 3 weeks to receive your results due to the summer holidays. Additionally, the review of this test will take place in the week of the resit of August. The results of the resit in August might not be known in time before the academic year starts.

Proof of Placement

Approximately one week before the subject test takes place you will receive a Proof of Placement by email. On this Proof of Placement you will find the location and exact time of the test. It is not possible to participate in the entrance exam if you don't have a Proof of Placement for the relevant test date.

Please note: You will only receive a Proof of Placement for the subject test if you **passed** the capacity test.

2.2 Costs

The costs for taking part in the entrance exam are € 90,-. This amount must be paid on the application & registration deadline at the latest. Once you have submitted your admission request for the degree programme and entrance exam via Studielink, you will find the registration form in Selfservice. When the registration form and other required documents have been received via Selfservice on time, you will find a payment link in the Studyshop in Selfservice within 2 days or a week before the capacity test at the latest.

	Administration costs	Participation fee	Total costs
Entrance exam	€ 45	€ 45	€ 90
IELTS or TOEFL test* <small>*Please note: candidates will have to enrol themselves separately for the IELTS or TOEFL test via www.IELTS.org or www.TOEFL.org</small>	N/A	€180- €200*	€180- €200* <small>*(depending on where you take this test)</small>

2.3 Disability and participation

We can facilitate candidates with a disability such as dyslexia. Please upload your request for special procurements due to your disability on Selfservice and mention what form of disability you have through the enrolment form. We will try to find a way to make your participation possible. It is sometimes possible to adjust the test time or form. It is a necessity to include an official (medical) statement in case of dyslexia when you upload the enrolment form on Selfservice.

2.4 Changes or cancellation

You can cancel your application for the capacity test before the final cancellation date. The information about the deadlines can be found on *page 6*. We will charge €45,- administration costs for cancellations made after the deadline, but before the actual date of the capacity test. If you cancel on the day of the exam or after, your right to a refund has expired. Cancellation is only possible through email (toelatingstoets@inholland.nl).

If you are unable to participate in the test due to personal circumstances, please give notice to the Bureau for Admission Tests in advance. There are no alternative test moments if you cannot participate in the test on the available day given, but you are able to request a refund of the participation fees (minus the administration costs). In that case please send a written request including documentation showing that there was an unforeseen, special circumstance.

3. Preparation

The entrance exam is based on testing both your knowledge and skills. In Appendix 1 you will find an overview of the entrance exam for each particular bachelor programme. You will have to prepare for the test yourself; there are no courses to prepare you for the test. Appendix 2 includes an explanation of how to prepare for the subject test and suggested books and websites.

4. Entrance exam requirements

The English entrance exam consists of two parts:

- The Inholland entrance exam capacity test and subject test (which depends on the degree programme of your choice (see Appendix 1));
- An IELTS or TOEFL test which is no older than two years on 1 September of the academic year you applied to start your study AND complies with the minimum requirements (see chapter 5).

Please note the following in regards to the IELTS or TOEFL test:

- You will need to enrol for this test separately via www.IELTS.org or www.TOEFL.org;
- The costs for the language test (between € 180 - € 200) are *not* included in the fee for the entrance exam;
- You will need to have obtained the test and upload the certificate no later than the 1st of September. We will not accept certificates that are older than two years on the start date of the programme you applied for.
- You will only have finalised your entrance exam when you have passed the capacity test, obtained a minimum score of 5.5 for your subject test(s) *and* have submitted an IELTS or TOEFL certificate, with the required scores, which is not older than two years;
- Your test results of the entrance exam will be valid for a year, but this also depends on the date of your IELTS or TOEFL test.

5. Procedure during the entrance exam

5.1 What to bring

Make sure you bring the following:

- Your Proof of Placement;
- Your identification (a valid passport, identification card, drivers license or residence permit);
- Permitted and required tools (e.g. calculator) to use during the test (see appendix 2 for more information).

Please note: it is NOT possible to participate in the test without valid identification and Proof of Placement.

5.2 In the exam room

The following rules apply during the exam:

- Your identification must be on the table during the test and be visible to the supervisor;
- Only writing materials and the authorised equipment may be placed on the table;
- Authorised dictionaries e.g. may not contain notes or any loose additions;
- Authorised equipment may not be exchanged with other participants;
- You are not allowed to make any verbal or nonverbal contact with other participants during the exam;
- You may not consult other participants or provide the opportunity to another to consult your work;
- You may not wear clothes in a manner that your face is covered;
- You must take off your watch and put this away in your bag before the start of the exam;
- You are not allowed to eat during the test;
- Your mobile phone is switched off;
- After the test you hand in your work and the original test papers;
- You may leave the exam room no sooner than 15 minutes after the test has started;
- After you have left the exam room you may not return to the exam room;
- If you arrive after the start time of the test, you will not be able to participate.

5.3 Equipment to use during the test

For some subjects you are authorised to use equipment as mentioned in Appendix 2. In most cases it will be the use of a dictionary or a calculator. Please note that you are responsible for this equipment, they will not be provided by Inholland. Dictionaries may not contain notes or loose papers. They will be checked by the supervisor.

5.4 What does the entrance exam involve?

The level of the entrance exam is comparable to the levels of the secondary school final exams. The subjects per programme may vary. For the specific subject of each programme please see Appendix 1. The exam is a written test. The form of the test may vary from multiple choice, open questions to a mix of both forms of questions. Please see Appendix 2 for the form of each particular subject.

5.5 Irregularities or fraud?

The supervisor will keep the right procedures under surveillance during the test. If they discover any irregularities or fraud, the candidate must leave the exam room immediately. He or she will be requested to hand in all the paper work. The test will not be revised. No test grade will be assigned or the assigned grade will be void with retroactive effect if fraud is ascertained after the event. The candidate involved will receive a written notice regarding this matter no later than three weeks after the test. He or she may appeal against this decision within four weeks after the notice at the Board of Appeal Concerning Examinations. Addresses and detailed information can be found in the notice.

6. After the entrance exam

6.1 Result of the entrance exam

The results of the **capacity test** will be sent to you by email within 3 working days.

You will receive your result of the **subject test** three weeks* after the test took place. If you pass the test and you meet the requirements (participation fees paid, applied for the course and 21 years of age or older when the programme starts) and you have submitted a valid TOEFL or IELTS certificate, you will also receive an Admission Statement. The Admission Statement of the entrance exam is valid for admission to the chosen bachelor programme at Inholland only.

*When participating in the subject test in July, it might take longer than 3 weeks for you to receive your result due to the summer holidays.

6.2 What to do if you disagree with the result

If you would like to know what you have done wrong on your test you can apply at the Bureau for Admission Tests to review your test on the exam review day. You will receive further information about the exam review day regarding the place and time and how to apply for this opportunity after the test.

If you do not agree with the entrance exam results, you may lodge an appeal with the Board of Appeal Concerning Examinations of Inholland. You will have to do this within six weeks after receiving the results. Or within six weeks after the review day if you have used this opportunity to review your work. The address and further information about the procedure can be found in the entrance exam result letter that you receive by post. The appeal only concerns the way the result is achieved; the Board of Appeal Concerning Examinations does not intervene with the (level of) rating of the result itself.

6.3 Resits

It is not possible to resit the first component of the entrance exam; the capacity test.

Under certain circumstances, it is possible to resit one subject test.

- For September intake students, you may resit one subject test during the next testing opportunity. For example, tests made in January can be resit in April.
- It is not possible to resit a test component of the entrance exam for which you have earned a passing mark.

6.4 Validity of the Admission Statement

Academic year	Subject test date	Valid until
September 2025	11 th of January 2025	1 September 2026
	12 th of April 2025	1 September 2026
	14 th of June 2025	1 September 2026
	4 th of July 2025	1 September 2026

The entrance exam is only valid in conjunction with an IELTS or a TOEFL certificate no older than two years.

Therefore you will only receive this Admission Statement after you have submitted a valid TOEFL or IELTS certificate with the required scores.

The admission applies only for the degree programme for which you have taken the test. If you would like to start with another programme afterwards, please send a letter or email with your request for a new Admission Statement to the Bureau for Admission Tests. This is only possible if the content of the entrance exam for the second programme that you have chosen is exactly the same as the first programme.

Please note: you may receive mail about your enrolment request for the programme before the results of your entrance exam are known. For example, you receive information about the programme, introduction days or literature lists. Please be aware that this **does not** mean that you have passed the test.

APPENDIX 1

Table of the entrance exam to specific bachelor programmes

Please find an overview of the English bachelor programmes and the different subjects of the entrance exam below.

In Appendix 2 you will find the description of each particular subject test.

Programme	Part 1 of the entrance exam	Subject test 1	Subject test 2	English language proficiency
B Creative Business (EN)	Capacity test	Economics A	N/A	See page 6
B Applied Mathematics (EN)	Capacity test	Mathematics B	N/A	
B Information Technology (EN)	Capacity test	Mathematics A	N/A	
B Business Innovation (EN)	Capacity test	Economics B	Business English Proficiency	
B Tourism Management (EN)	Capacity test	Economics B	Business English Proficiency	
B Aeronautical Engineering (EN)	Capacity test	Mathematics B	Physics	
AD Electronic Music (EN)	Capacity test	Auditions	N/A	

APPENDIX 2

Description of each particular part of the entrance exam

Each exam will be described on the next pages.

The following will be indicated per exam subject:

- for which English programme the exam is made
- what the content of the exam is
- which type of exam it is
- how to prepare
- which equipment is allowed
- which books or sources can be used for preparation

Check appendix 1 for the particular exam of the bachelor programme of your choice.

Business English Proficiency

For which programme	<ul style="list-style-type: none"> • B Business Innovation (EN) • B Tourism Management (EN)
Contents	<p>Please note: Apart from passing Inholland's Business English Proficiency test, you will also need to obtain an IELTS or TOEFL certificate. Passing the Business English Proficiency test does not exempt you from the requirement of an IELTS or TOEFL certificate.</p> <p>Part 2</p> <p>The Business English Proficiency test consists of reading and understanding texts (of the business context) and essay questions.</p>
Type of exam	The exam is a written exam.
Duration of exam	90 minutes
How to prepare?	See books and other references
Permitted resources	No dictionaries or other resources are permitted
Books and other references	<p>Business English</p> <p>Cambridge University, sixth print 2002, ISBN 0521775310 (or any similar print)</p> <p>International newspapers such as <i>The Guardian</i> and <i>The Times</i></p>

Economics A

For which programme	<ul style="list-style-type: none"> • B Creative Business
Contents	<p>The basic economics is based on common knowledge in the field of economics and applied calculations. The key elements of the economics part are as follows:</p> <ul style="list-style-type: none"> • Introduction to economics • Macro-economics • International Economics • Development Economics • Applied calculations
Type of exam	The exam is a written exam with open questions based on two short case studies
Duration of exam	90 minutes
How to prepare?	Study the IB Economics Review Guide (see Books and Other References) Sections 1, 3, 4 and 5
Permitted resources	It is allowed to use a basic scientific calculator. A graphing calculator is not allowed.
Books and other references	<p>Economics:</p> <ul style="list-style-type: none"> • IB Economics Review Guide https://en.wikibooks.org/wiki/IB_Economics Study sections: 1.1, 1.3, 3.5, 4.5-4.7 and chapter 5

Economics B

For which programme	<ul style="list-style-type: none"> • B Business Innovation (EN) • B Tourism Management (EN)
Contents	<p>The basic macro-economics is based on common, secondary school-level, knowledge of macro-economic concepts and principles. The exam may cover any of the following topics:</p> <ol style="list-style-type: none"> 1. Wants, needs, scarcity 2. Market economy, command economy, mixed economy 3. Role of money 4. Monetary policy 5. Inflation, causes of inflation 6. Nominal and real gross domestic product 7. Fiscal policy 8. Unemployment 9. Budget deficits and public debt 10. Free trade and trade barriers 11. Demand, supply, markets and prices
Type of exam	The exam is a written exam with open short-essay questions based on a case study
Duration of exam	90 minutes
How to prepare?	Study the IB Review Guide (see books and other references)
Permitted resources	It is allowed to use a basic scientific calculator. A graphing calculator is not allowed.
Books and other references	IB Economics Review Guide - https://en.wikibooks.org/wiki/IB_Economics Study sections 1.1,1.3,2.1,5.1,5.2 and 5.3

Mathematics A (Algebraic skills)

For which programme	<ul style="list-style-type: none">• B Information Technology (EN)
Contents	<p>Calculating fractions, calculations with letters, calculating with powers, rounding up and down, first- and second-degree equations, equations, resolve into factors, comparing lines, quadratic functions, calculating percentages.</p> <p>The emphasis is on knowledge from havo year 1, 2 and 3. Not on statistics and probability calculation.</p> <p>These subjects can be found in:</p> <p>- All you need in maths!, second edition, Jan van de Craats & Rob Bosch, ISBN 9789043032858. Relevant are Chapters 2 through 5, 9, 12 and 16.</p> <p>If you miss the foundation for mathematics, it is advisable to study the book below:</p> <p>- Basisboek Rekenen, tweede editie, Jan van de Craats & Rob Bosch, ISBN 978-90-430-2104-3.</p>
Type of exam	Written exam
Duration of exam	Maximum 120 minutes
How to prepare?	Self-study
Permitted resources	Pen, pencil, paper, protractor. A calculator is not allowed
Books and other references	<p>All you need in maths!, second edition, door Jan van de Craats en Rob Bosch. ISBN 9789043032858. Relevant are Chapters 2 through 5, 9, 12 and 16.</p> <p>If you miss the foundation for mathematics, it is advisable to study the book below: Basisboek Rekenen, Jan van de Craats en Rob Bosch, ISBN 978-90-430-2104-3.</p>

Mathematics B

For which programme	<ul style="list-style-type: none"> • B Aeronautical Engineering (EN) • B Mathematical Engineering (EN)
Contents	<p>The exam has the following contents: Calculus, involutions, parenthesis, fractions with letters, formulas and graphs, lines, quadratic functions, power functions, derivative of power functions, trigonometry.</p> <p><i>All you need in maths!</i>, Jan van de Craats en Rob Bosch, ISBN 9789043032858. Chapters 2 through 6, 9 through 12, 16 through 18 and 20 are the focus of this exam.</p>
Type of exam	The exam is a written exam with open questions
Duration of exam	120 minutes
How to prepare?	Self-study
Permitted resources	Pen, pencil, paper, protractor. It is allowed to use a basic scientific calculator. A graphing calculator is not allowed.
Books and other references	<i>All you need in maths!</i> , second edition, Jan van de Craats en Rob Bosch, ISBN 9789043032858, Chapters 2 through 6, 9 through 12, 16 through 18 and 20 are the focus of this exam. An English version of this book is available.

Physics

For which programme	<ul style="list-style-type: none"> B Aeronautical Engineering (EN)
Contents	<p><u>Mechanics</u></p> <p>Basics: units, diagrams, measuring and uncertainty, significant decimals</p> <p>Movement: movement in a straight line, acceleration, velocity</p> <p>Forces: calculations, equilibrium, Newtonian laws</p> <p>Work and energy: work, forms of energy, kinetic energy, power, yield</p> <p><u>Electricity</u></p> <p>Ohm's law, parallel and serial circuits, electrical energy, power, yield</p> <p><u>Heat</u></p> <p>Specific heat, heat capacity, conduction, current, radiation, power</p> <p><u>Atoms</u></p> <p>Atom structure and isotopes</p> <p>These subjects can be found in the physics book (see books and other references)</p> <p>Study chapters 1, 2, 3, 4, 5, 8 and 11.01.</p>
Type of exam	The exam is a written exam with open questions
Duration of exam	120 minutes
How to prepare?	<p>Self-study</p> <p>Please note that this is a very large study load. The contents contain a major part of the havo material from Natuurkunde. There is absolutely no point in taking this exam at random or after a short period of study.</p>
Permitted resources	It is allowed to use a basic scientific calculator. A graphing calculator is <u>not</u> allowed.
Books and other references	<p>Complete Physics for Cambridge IGCSE</p> <p>Stephan Pople</p> <p>ISBN: 978-0199138777</p>
